

Brainstorming & Idea Prioritization Template

Date	10 July 2026
Team ID	xxxxxxx
Project Name	Rising Waters: A Machine Learning Approach to Flood Prediction
Maximum Marks	3 Marks

Step 1: Brainstorm and Idea Listing

The project developer brainstorms and lists multiple possible ideas and solution approaches related to the problem without evaluating or filtering them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Harika Velugubantla	Develop a Machine Learning model to predict flood occurrence using historical rainfall and weather data.	Machine Learning	1
2	Harika Velugubantla	Compare multiple algorithms such as Decision Tree, Random Forest, KNN, and XGBoost to identify the best-performing model.	Model development	1
3	Harika Velugubantla	Build a Flask-based web application that allows users to enter weather parameters and receive real-time flood predictions.	Web Development	2
4	Harika Velugubantla	Perform Exploratory Data Analysis (EDA) using heatmaps, box plots, feature distributions, and correlation analysis to understand data patterns.	Data Analysis	3
5	Harika Velugubantla	Save the trained model and preprocessing objects for deployment and future predictions.	Deployment	2
6	Harika Velugubantla	Create a user-friendly flood prediction dashboard to support disaster management	Disaster management	4

Brainstorming & Idea Prioritization Template

		authorities with early warning and decision-making.

Step 2: Idea Prioritization

Evaluate each proposed idea based on its feasibility and importance, assign a priority, and select the most suitable idea to proceed with the project development.

Group No.	Final Idea	Feasibility (High/Medium/Low)	Importance (High/Medium/Low)	Priority	Selected (Yes/No)
1	Develop and evaluate multiple Machine Learning models for flood prediction using rainfall and weather data.	High	High	1	Yes
2	Design and deploy a Flask web application for real-time flood risk prediction.	High	High	2	Yes
3	Perform comprehensive data visualization and feature analysis to improve model understanding.	High	Medium	3	Yes
